

Have you ever been biking on the Heritage trail and someone who walks or has a baby in a stroller gets in way? Well, I have a law that can change that. I think it would be a good idea to put sidewalks on the trail. Well, I will tell you why you should put sidewalks on the trail.

When I ride on the trail with my bike, walkers always get in my way. People with babies in a stroller do too. That always happens to me. Well, that's why I think it's a good idea.

These are the advantages for people who get in the way. People with a stroller can go on it; people who walk can walk on it too. Also people with roller blades can use it. That's entirely why I think you should put sidewalks on the trail.

If you do put sidewalks on the trail I will walk on them. Or I will ride on them with my roller blades. Please put sidewalks on the trail. People will enjoy it.
